Ant Play turns your Smart Device into a Gaming PC

Published on October 20, 2021

Now customers can subscribe to the service and help change the landscape of gaming in India. Choose from two different configurations with subscriptions starting from just Rs 999. Run high end PC games even on archaic desktops, laptops or even mobile devices. A complete heavy duty cloud PC solution for desktop experience.

New Delhi : 'Ant Play' has launched first of its own kind, a cloud based gaming platform that turns any smart device into a gaming PC. The idea is to simplify the streaming of high-quality, immersive games on low, medium and even aging desktops and laptops.

Ant Play aims to make high end, fast paced gaming more accessible via leveraging cloud services. Ant Play makes it easy to stream high-quality, immersive games on low, medium and even aging desktops and laptops. Players can enjoy Ant Play on their favorite devices without lengthy downloads or updates, expensive hardware or complicated configuration. It gives the ability to play at FHD, 60fps, a latency of 10-20 ms, and all of it with a connectivity currently found in most homes between 15Mb/s to 50Mb/s

"Ant Play is new and promising software designed to create easy access to play great games on the devices customers already own and love. The users will be benefited with the best configuration at the minimum subscription price" said Himanshu Jain, Founder, Ant Play

Any Game, Any Configuration, Any Budget!

While other services in the field offer one plan solution only Ant Play offers two predefined configurations at launch with one based on a quad core CPU and GTX 1660 and another based on an octa-core CPU and RTX 3060. Users can choose the configuration and pay for intervals ranging from as small as 7 days to a full month giving the highest level of
